Government and HSE Announcement

Following on from the government and HSE announcement this week, public Masses will continue to be celebrated as normal. There is no change to the arrangements that are already in place. The following are the Mass Times in our parish:

Our Lady of the Rosary, Newmarket - Saturday at 7.30pm and Sunday at 11am.

Our Lady of the Wells—Friday and Saturday at 6pm

St Connaire, Carrigerry 9am on Sunday

We thank the great teams of stewards, sanitisers, and volunteers who by their generosity enable us to celebrate public Masses. We ask everyone attending our Masses to sanitise on entry and exit and to wear a mask and/or face visor. It's a small part we can play to keep each other safe. If you have an underlying health condition that doesn't permit you to wear a mask, we ask you to maintain social spacing. Thank you for your ongoing co-operation.

THE TATE FAMILY

Let me introduce you to the **Tate** Family. They are a big family and very influential family present in every parish and community group.

First there is the **Dictate** who wants to run everything — usually does until there's nothing left to run.

Then you'll find that **Rotate** will come in to try to change everything.

But he will be blocked by **Irritate** who stirs up plenty of trouble with the help of his friend **Agitate**.

Whenever there are changes to be made and new projects to get off the ground. **Hesitate** and **Vegetate** want to wait until next year or a more suitable time — which usually means sometime when they won't have to change at all.

Very prominent in every community is **Imitate**, who wants everything to be run exactly the way she runs it. But the one that really upsets her is **Devastate**, who provides the voice of doom.

Then there is **Facilitate**, who is most helpful when there is work to be done. In fact **Facilitate** is the one who keeps the whole community going, always trying to keep the peace when everyone is losing their head.

There is always a battle between **Cogitate** and **Meditate** as to which on them will think things over more. Both of them are introspective and both of them think themselves wiser than they actually are.

Finally, there's a member of the **Tate** family that nobody wants to talk about, the black sheep — **Amputate** who has cut himself off completely from the rest of the family. The question we have to ask ourselves is this: Which of the **Tates** are we?

Climate Change

In the aftermath of Storm Ellen and the heavy rain, how often this summer have we arrived home soaking wet and full of complaints about the rain. The good weather earlier in the summer had left

Ireland short of water and a ban on using water with a hose.

Pope Francis had issued a document on 'Water the Source of Life'. There is the invitation in it to contemplate water, to reverence it, to preserve and protect it.

Fr. Brian Grogan, SJ mentioned that when he was in Somalia, a very dry and hot place; a man came to see him and Brian gave him a glass of water. Brian expected him to gulp it down but instead he took it reverently and drank it slowly and with awareness. The man had such respect for the water that Brian never forgot it. The document wants us to appreciate and respect water and not just to use it as a utility. He said (quoting the Pope's Encyclical on the environment) that God looks after all things and looks at them 'with great affection'.

Let us not forget the many parts of the world where there is drought and where people would give anything to see a drop of that wonderful water
